Over \$10,000 worth of Educational Program

TESTIMONIALS

Chris started as a 21st Century Member in 2001, and took massive action with share renting and selling insurance strategies he learnt and one week made as much as \$87,000. This enabled him to focus on his passion of building cars. He had a premonition before the stock market crash in 2007 to get out of the share market before it crashed and moved into other strategies such as learning about Property Options from one of 21st Centurys speakers and internet marketing and decided to retire as a share investor from his success.

Chris Karamoshos

Hi Jamie, Thanks for your time at the seminar at the weekend. As I briefly mentioned to you on Saturday, I am on this year's committee of the Gold Coast Basket Brigade. We are starting earlier this year so as we have enough time to do things and not have to frantically search for solutions if we are required to do so! The main aim at present is to raise \$35,000, as there are still have some funds from last year, and this will give us a basket target of 750. I am interested to see what you can and will do, as I knew you would help us. I am guessing that we will not get a straight out donation of \$35,000 as this would be to easy?

What's covered in the DVD and e-book

- How to not only survive but thrive in a global credit crisis
- How to rent out shares for \$5,000 to \$10,000 per month starting next week
- 8 ways to find money to invest
- How to make \$35,000 per year tax free from property
- How to have a millionaires lifestyle inside the next 12 months without even needing to become a millionaire
- How to borrow 100% in the share market with total protection
- How to insure your shares
- How to develop the mindset of millionaires
- How to make a fortune in a stock market crash

Some more valuable topics covered in the DVD and e-book

☐ How smart investors are replacing their income in 90 to 180 days or less by using the unique cash flow strategy.

☐ How to cut your mortgage in half.

☐ The 4 key skills you must master to succeed in the 21st Century, and how others have used these skills to earn over \$100,000pa.

☐ REVEALED: How smart investors sell insurance in the market for a small fortune and why your financial planner doesn't know about it.

☐ EXPOSED: The myth that it takes money to make money - 8 ways investors raise money to start investing immediately, even if they have no cash.

☐ How some Australian's have become millionaires in the last 6 years using a 21st Century Education including some who have started with very little.

☐ How to rent shares to make \$5000 to \$10,000 a month

☐ How to eliminate debt in 3-7 years.

☐ How to instantly add tens of thousands of dollars to the value of your property for as little as \$400.

☐ How smart investors are earning a nice and easy \$35,000 per year from their investment property - tax free!

or would that be too presumptuous of me. I look forward to hearing from you and thank you in advance for your support.

Regards Martyn Barnwell PS. On a more personal note, I would like to say a big THANK YOU from my family and myself for all that you have done, still do and (no doubt) will continue to do. Your book (the first one) was only the second book that I had read in twenty years and when I had finished, it in less than two days, I sat down and cried knowing that I had just found HOPE. I knew if I had nothing but the shirt on my back everything was going to be all right from now on. Not just for me and my family but for those less fortunate and unable to help themselves as I knew I was about to acquire knowledge, guidance and strategies to enable me to do so. THANK YOU.

PPS. I do consider you as my number one mentor, but I won't be stalking you.

Martyn Barnwell

Since reading the book I got a line of credit on my House and started trading the stock market in blue Chips. To

date since Late November 2008 I have made a profit in excess of \$98,000. I would like to get more details on financing real estate to help my sons and daughter. I plan to come to the 4 day seminar in Melbourne . Any advice you can give

me would be greatly appreciated.

David Ross

Hi Jamie, It has been a year and half since we purchased your home study. When we watched the free DVD we were convinced that something needed to change in our lives and even though it seemed like a lot of money to spend at the time we thought doing nothing would cost us

a lot more in the long run. Even though it was a struggle to pay for the home study it was the best money we have ever spent (EVER). We attended the four day seminar in November 2008 at Gold Coast - since then our lives have totally changed. There has been so many opportunities open to us that we didn't even know existed. One of our biggest goals was to retire from a J.O.B. (Just On Broke). At age 28 and after a year and half of purchasing your home

\$55,000 per year from their investment property - tax free.

☐ A step-by-step demonstration on how to buy an investment propertywith virtually no money down!

☐ A 21 point proven checklist for investing in property so the odds are on your side.

☐ How to have a millionaire lifestyle within 12 months without needing to even become a millionaire.

study we have both sacked our employees and have retired from a job!!! WOOO HOOO!!!!!! I would not hesitate to recommend anyone purchase your home study - it has been the best investment we have made!!! I wanted to send this letter to say THANK YOU!!!!!! If it wasn't for you wanting to help others this would not be possible. You are one incredible person to dedicate your time to help other achieve their goals and to make the impossible possible. Words can't describe the gratitude and appreciation we both feel towards what you have given to us. Thank you!!!!

Dennis and Juliet Kahrilas

Hi Jamie, you don't know me, yet... But I just had to send you a message. (Who would of thought you were on facebook?! haha...) I finished watching your free DVD a few nights ago, and it inspired me so much, I had to start reading the ebook straight away

My wife was working at the time, got home late and went to bed, and I was glued to the computer reading page after page until my wife, Linda came out at 3am and made me shut down the computer. I was so excited... I woke up the next day and sat my wife in front of TV and played her the DVD. She shared exactly the same feelings I had and we enrolled for the home study course. There are a lot of people out there trying to sell courses, investment clubs and the like, but you come across so clearly as someone who genuinely wants to help others, that \$4000 seems like an absolute bargain.

I have read so many books, listened to so many audio tapes/CDs etc, but something just clicked with what you have to say. My favourite quote which I heard first from Zig Ziggler (i think) is, "the same wind blows on us all. But it is the set of the sail that makes the difference"

Reading your book so far has been great, I feel like a cicada, discarding an empty shell of self doubt and negative beliefs (that maybe people are right and I wont be free from my JOB) that used to surround me, and starting a fresh!

I found myself agreeing with everything you wrote in your book (I just finished the part about writing your own eulogy) and I have re "un"covered my dreams i set myself a few years ago. I am so glad I found them again and thank you for helping me with that.

I wish I could attend Fiji as I just can't wait to get started, but will have to wait until Melbourne in the following month. (still trying to negotiate with work to get holidays for that period)

Linda and I have been trying for a while to get started building our financial freedom, (as many people do, we have had our run of bad luck and poor decisions) but you have helped me without doubt bring down the fear and personal barriers that I had.

I cant wait to thank you in person and maybe one day share my testimony with Australia.

You are an inspiration and I hope I may even be able to work with you in the future to educate others and mentor others who also want more to life than working at something they don't like and retiring once the greatest part of their life is over. I look forward to learning from you and developing my future, the way I want it!...

I love what you are doing... Hope to see you in Melbourne!
